Subject: My Frustration to the President -Global Crossing

Dear Mr. President,

I have been a republican in the last twenty five years, but I am about to change my party affiliation.

Mr. President, you made a comment on being tougher on corporate fraud while back that had many investors backing your words, but all they were.....it seems....were words not backed with any action.

Being a novice investor and having invested in a company called Global Crossing, I have learned that this company (or scam) has gone virtually untouched by any government agency to provide justice!

I am sure you know the problems and scam associated with this company and their "faked" bankruptcy procedure and yet our government gave them a free ride on Christmas eve of 2002 by declaring Gary Winnick, its CEO, will not be pursued in any wrong doing!!

This is simply unacceptable! Until justice prevails in the corporate world, it is my belief (as well as many others) that the United States of America's financial future is in the hands of GREED! GREED will always turn to ruin.

This is not a long message, but it is a simple message that needs to be heard.

Sincerely yours,

Tony Lau
